

Save Woolton Woods

Dear Woolton Resident,

The Mayor of Liverpool has recently announced that he wants to build St Julie's School on Woolton Woods. This is to make way for houses to be built on the existing St Julie's School site. If this goes ahead, Woolton Woods will be lost to the people of Woolton and the wider community forever.

A campaign group has been formed to fight these proposals and we have already set up a website, which can be found at:

www.savewooltonwoods.com

Hundreds of residents are angry that the Mayor and the City Council are planning to take away more of our green open space.

There are alternative options for these proposals to build a new school without taking away our parkland

Residents and local people who are opposed to these proposals can help by signing the on-line petition at:

www.wooltonwoodscampaign.com

If you do not have access to a computer, please complete the petition on the back of this leaflet. Only sign either the e-petition or paper petition and not both.

With your help we can put a stop to these plans.

Thank you
